PROFESSIONAL SUMMARY

Computer Science student with 99 of 120 credits completed toward a B.S. in Computer Science, a 3.51 GPA, and hands-on project experience in web, mobile, database, and software development. Brings 3+ years of leadership experience supervising high-volume operations, tracking performance, documenting issues, and improving processes. Seeking software development, QA/testing, systems analyst, data analyst, or IT roles where technical skills, leadership, and practical problem-solving can contribute to real business outcomes.

TECHNICAL SKILLS

Languages: JavaScript, HTML, CSS, Java, C++, Python, SQL/MySQL, TypeScript

Frameworks & Tools: React, Next.js, Tailwind CSS, Git, GitHub, GitHub Pages, VS Code, Visual Studio, Android Studio, Eclipse, Jupyter Notebook, MATLAB

Databases: MySQL, SQLite, MySQL Workbench, database queries, data tracking

Core Skills: Responsive UI, mobile-first design, debugging, documentation, testing, troubleshooting, process improvement, AI-assisted development, bilingual English/Spanish communication

PROJECTS

TaskFlow App | Mobile-First Productivity Web App | GitHub Pages | 2026

- Built and iterated on a task-management web app focused on daily planning, tags, mobile UI, user flow, and responsive layouts.
- Used GitHub workflows and AI-assisted development tools to generate features, test changes, document fixes, and improve user experience.

Reseller Inventory App | Inventory Tracking Web App | GitHub | 2026

- Created a practical small-business app concept for tracking inventory, photos, item status, pricing, and product details.
- Managed code with Git/GitHub, prepared README documentation, and planned deployment/access options for users.

Android Inventory App | Java, Android Studio, SQLite | 2026

- Developed a mobile inventory application concept with login, local data storage, inventory tracking, and SMS notification features.

EDUCATION

Bachelor of Science in Computer Science | Southern New Hampshire University | Remote | Expected Dec. 2026

- GPA: 3.51 | Credits completed: 99/120
- Relevant coursework: Software Design, Operating Systems, Database Design/SQL, Java Programming, C++ Programming, Software Testing/QA, Mobile Development, Systems Analysis, Statistics, Applied Linear Algebra

Associate Degree, Liberal Arts | La Salle University | Philadelphia, PA | 2018

PROFESSIONAL EXPERIENCE

Warehouse Team Supervisor | Frito-Lay | Easton, PA | May 2023 - Present

- Supervise overnight warehouse operations for approximately 25-28 employees while balancing productivity, attendance, safety, quality, and daily execution needs.
- Track performance trends, document operational issues, and prepare professional recaps for management with clear action items and follow-up ownership.
- Support inventory flow, inbound/outbound execution, labor planning, audit readiness, housekeeping standards, and process consistency in a high-volume logistics environment.
- Coach team members, reset expectations when needed, and strengthen shift communication to improve accountability and reliability.

Sales Consultant | Gateway Kia of Quakertown | Quakertown, PA | Jan. 2023 - May 2023

- Scheduled appointments, followed up with leads, explained purchase options, and supported sales goals through customer-focused communication.

Branch Manager | webuyanycar.com | Allentown, PA | Sept. 2019 - Mar. 2020

- Managed appointments, inspected vehicles, negotiated purchase prices, maintained sales documentation, and improved branch results.

Receiving Lead | Tesla Motors | Bethlehem, PA | Oct. 2018 - Jun. 2019

- Used inventory systems and material-handling equipment to unload, check in, organize, and track shipments accurately and efficiently.
